The Board of Directors' and CEO's Report

Marel is a leading global provider of advanced equipment, systems and services for the poultry, fish and meat industries. Marel has offices and subsidiaries in over 30 countries and a global network of more than 100 agents and distributors.

The Condensed Consolidated Interim Financial Statements for the nine-month period ended 30 September 2016 comprise the financial statements of Marel hf. ("the Company") and its subsidiaries (together "the Group" or "Marel"). The Condensed Consolidated Interim Financial Statements are prepared in accordance with IAS 34 Interim Financial Reporting and should be read in conjunction with the Group's Annual Consolidated Financial Statements as at and for the year ended 31 December 2015. The Condensed Consolidated Interim Financial Statements do not include all of the information required for a complete set of IFRS financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to understand the changes in the Group's financial position and performance from year end 2015.

Operations in the nine-month period ended 30 September 2016

MPS Holding III B.V. ("MPS") and its subsidiaries were acquired with effective date 29 January 2016. Further information is provided in Note 22 of the Condensed Consolidated Interim Financial Statements. The comparative information for 2015 is not adjusted as a result of this acquisition.

The bridge between adjusted result from operations and result from operations as shown in the Consolidated Statement of Comprehensive Income is as follows:

	YTD	YTD
	2016	2015
Adjusted result from operations	104,274	77,662
Adjustment for refocusing costs	-	(10,675)
Adjustment for amortization of acquisition-related intangible assets	(17,880)	-
Result from operations	86.394	66.987

The pro forma revenues for Marel, including MPS for the full nine months, are EUR 733 million YTD 2016 and EUR 727 million YTD 2015. The pro forma adjusted results from operations for the same periods are EUR 108.4 million or 14.8% of revenues YTD 2016 and EUR 105.2 million or 14.5% of revenues YTD 2015.

The order book amounted to EUR 305 million as at 30 September 2016 compared to a pro forma order book of EUR 320 million as at 31 December 2015.

Statement by the Board of Directors and the CEO

According to Board of Directors' and CEO's best knowledge, the Condensed Consolidated Interim Financial Statements give a true and fair view of the consolidated financial performance of the Group for the nine-month period ended 30 September 2016, its assets, liabilities and consolidated financial position as at 30 September 2016 and its consolidated cash flows for the nine-month period ended 30 September 2016.

Further, in our opinion the Condensed Consolidated Interim Financial Statements and the endorsement of the Board of Directors and the CEO give a fair view of the development and performance of the Group's operations and its position and describe the principal risks and uncertainties faced by the Group.

The Board of Directors and the CEO have today discussed the Condensed Consolidated Interim Financial Statements of Marel hf. for the nine-month period ended 30 September 2016 and ratify them with their signatures.

Notes to the Condensed Consolidated Interim Financial Statements

1. General information

Marel hf. ("the Company") is a limited liability company incorporated and domiciled in Iceland. The address of its registered office is Austurhraun 9, Garðabær.

The Condensed Consolidated Interim Financial Statements of the Company as at and for the nine-month period ended 30 September 2016 comprise the Company and its subsidiaries (together referred to as "the Group" or "Marel"). The Group is a leading global provider of advanced equipment, systems and services for the poultry, fish and meat industries and is involved in the manufacturing, development, distribution and sales of solutions for these industries.

The Condensed Consolidated Interim Financial Statements for the nine-month period ended 30 September 2016 have not been audited nor reviewed by an external auditor.

The Company is listed on the Nasdaq OMX Nordic Iceland exchange.

These Condensed Consolidated Interim Financial Statements have been approved for issue by the Board of Directors on 26 October 2016.

All amounts are in thousands of EUR, unless otherwise stated.

2. Basis of preparation

These Condensed Consolidated Interim Financial Statements of the Company and its subsidiaries (the Group) are for the nine-month period ended 30 September 2016. These have been prepared in accordance with IAS 34 as adopted by the European Union. The Condensed Consolidated Interim Financial Statements should be read in conjunction with the Group's Annual Consolidated Financial Statements for the year ended 31 December 2015. The Consolidated Financial Statements for the Group for the period ended 31 December 2015 are available upon request from the Company's registered office at Austurhraun 9, Garðabær, Iceland or at www.marel.com.

On 29 January 2016 Marel concluded the acquisition of MPS Holding III B.V. ("MPS") and obtained control through acquiring 100% of the issued shares of MPS. Comparative financial information presented in the Condensed Consolidated Interim Financial Statements does not include information on MPS.

3. Accounting policies

The accounting policies adopted are consistent with those of the Annual Consolidated Financial Statements for the year ended 31 December 2015, as described in the Annual Consolidated Financial Statements for the year ended 31 December 2015, except for the below change in accounting policies.

Expenditure to acquire patents, trademarks and licenses is capitalized and amortized using the straight-line method over their useful lives, but not exceeding 8 years, or 11 years in case of trademarks.

In March 2016, Marel announced a new branding strategy. As of that time the industries poultry, meat and fish are united under common Marel brand, with one Marel logo and tag line. As of now, the trade names used in the poultry industry (Marel Stork Poultry Processing) and further processing business (Marel Townsend Further Processing) will be used in product descriptions for equipment and Marel will continue to use these brands in spare parts business. These tradenames will be amortized in 10 years. Consequently Marel started to amortize mentioned trade names as from March 2016. The impact of these amortizations for the period ended 30 September 2016 is EUR 0.6 million.

4. Financial management

The Company's policy is to finance its operations in its revenue currencies. More than 99% of Marel's revenues originate outside of Iceland and there is a good currency balance between the Company's revenues and costs. Efforts have been made to systematically reduce currency risk in the Company's financing and to reduce interest cost.

In November 2015, the Group entered into a new EUR 670 million facilities agreement with eight international banks, led by ING bank, Rabobank and ABN Amro. The terms and conditions are generally in line with Loan Market Association corporate standards. The new facility was utilized to repay the previous facility from 2010 as well as providing funds for the acquisition of MPS. The facility converts the previous facility into an all senior facility, extends the term to 2020 as well as provides funds for the acquisition of MPS.

The key elements of the financing are:

- A five-year all senior loan and revolver, consisting of a EUR 343 million and a USD 105 million term loan and EUR 225 million multicurrency revolver, with final maturity in November 2020.
- Initial interest terms are EURIBOR/LIBOR + 275 bps, which will vary in line with Marel's leverage ratio (Net debt/EBITDA) at the end of each quarter.

The Group has a financing structure which can accommodate the Group's financing requirements until 2020 with USD and EUR borrowings matching the Group's exposure in these currencies to a large extent.

The facility has an embedded 0% floor in the EURIBOR and LIBOR rates. At the date of utilization of the loans (29 January 2016) the 5 year EURIBOR curve was negative and consequently the floor has intrinsic value at the date of inception. In accordance to IAS 39 Financial Instruments, Marel has separated the embedded derivative from the facility and reports the intrinsic value on a fair value basis as a financial derivative on the Consolidated Statement of Financial Position. For further details see Notes 17 and 19.

5. Segment information

Operating segments

The identified operating segments comprise the three industries, which are the reporting segments. These operating segments form the basis for managerial decision taking. The following summary describes the operations in each of the Group's reportable segments:

- Poultry processing: Our poultry processing product range offers integrated systems for processing broilers, turkeys and ducks;
- Fish processing: Marel provides advanced equipment and systems for salmon and whitefish processing, both farmed and wild, onboard and ashore;
- Meat processing: Our Meat Industry specializes in the key processes of slaughtering, deboning and trimming, case ready food service and bacon processing;
- The 'Others' segment includes the holding companies as well as any revenues, result from operations and assets which do not belong to the three core industries.

The reporting entities are reporting their revenues per operating segment based on the industry for which the customer is using Marel's product range. Therefore inter-segment revenues do not exist, only intercompany revenues within the same segment.

Results are monitored and managed at the operating segment level, up to the result from operations. The Group's CEO reviews the internal management reports of each segment on a monthly basis. The business of the Company is not highly seasonable; fluctuations between quarters are mainly due to timing of receiving orders and completion of orders. Decisions on tax and financing structures including cash and cash equivalents are taken at a corporate level, therefore no financial income and expenses nor tax are allocated to the operating segments. The profit or loss per operating segment is the adjusted result from operations (before refocusing costs and amortization of acquisition related intangible assets); finance costs and taxes are reported in the column Total.

Intercompany transactions are entered into at arm's length terms and conditions comparable to those available to unrelated parties. Information on assets per operating segment is reported; however, decisions on liabilities are taken at a corporate level and as such are not included in this disclosure.

The Company has changed its internal reporting structure of the segments and the allocation of operating expenses to these three operating segments from 1 January 2016 to reflect the new organizational structure. Allocation to these three operating segments is mainly done based on a detailed review of equipment revenues and installed base for segments where the customers operate in. The Company is now managed on the basis of three industries with functions that work across all segments to effectively manage business operations. Comparative amounts in this note to the Condensed Consolidated Interim Financial Statements have been restated. The change into three operating segments does not have any impact on consolidated revenue, operational profit or net profit.

The segment information for the period ended 30 September 2016 is as follows:

6. Refocusing costs

In the Consolidated Statement of Comprehensive Income and Note 5 Segment information, refocusing costs are shown separately in order to give transparency on the ordinary business, excluding these costs. Refocusing costs are defined as the costs in relation to the Simpler, Smarter & Faster program of the Group. This program started in January 2014 and was successfully concluded in 2015 with the following goals:

- Combine business units that serve the same customer needs and rely on the same technical capabilities.
- Optimize the manufacturing footprint to balance utilization of resources within the Company.

The refocusing costs consist of:

Net foreign exchange transaction gains		1,311
Subtotal Finance income	264	1,718
Net Finance costs	(21,501)	(8,363)

The Group's net finance cost increase significantly between years as borrowings increase due to the acquisition of MPS. Interest on borrowings in YTD in 2016 are exceptionally high due to one off repayment fee (EUR 2,424) on the junior loan acquired in Q1 2015. Other finance costs YTD 2016 increase due to new capitalized finance charges in connection with the new facility as well as revaluation of the embedded derivative.

9. Income tax

Tax charge included in the profit or loss for the period	(11,685)	18.0	(11,790)	20.1

The Group believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretations of tax laws and prior experience.

10. Earnings per share

Basic earnings per share is calculated by dividing the net profit or the comprehensive income attributable to shareholders by the weighted average number of ordinary shares in issue during the period, excluding ordinary shares purchased by the Company and held as treasury shares.

Basic earnings per share (EUR cent per share)

	YTD	YTD
	2016	2015

Weighted average number of outstanding shares in issue (thousands)	715,250	718,912
Basic earnings per share (EUR cent per share)	7.15	6.22

The diluted earnings per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares. The Company has one category of dilutive potential ordinary shares: share options. For the share options a calculation is done to determine the number of shares that could have been acquired at fair value (determined as the average annual market share price of the Company's shares) based on the monetary value of the subscription rights attached to outstanding share options. The number of shares calculated as above is compared with the number of shares that would have been issued assuming the exercise of the share options.

Impairment testing

The Group tested at the end of 2015 whether goodwill and infinite intangible assets had suffered any impairment and the conclusion was there were no triggers indicating that impairment was necessary. At the end of Q3 2016, there is no reason to deviate from the conclusions taken at year-end.

13. Deferred income tax

Deferred income taxes are calculated in full on temporary differences under the liability method. The gross movement on the deferred income tax account is as follows:

19. Derivative financial instruments

Interest-rate swap

To protect Marel from fluctuations in Euribor-EUR-Reuters/Libor-BBA and in accordance with the interest hedge policy Marel has entered into interest rate swaps (the hedging instruments) to receive floating interest and to pay fixed interest.

The notional principal amount of the outstanding active interest rate swap contracts at 30 September 2016 was EUR 262,282 (31 December 2015: EUR 139,061).

FX Forwards

With the acquisitions of MPS in January 2016, Marel acquired FX forward contracts with principal of approximately EUR 1.3 million and market to market value of EUR 0.05 million. The forward swaps were used for hedging purposes of projects in USD and CAD. These contracts will be held to maturity and Marel's currency risk policy will be applied for future transactions.

20. Contingencies

At 30 September 2016 the Group had contingent liabilities in respect of bank and other guarantees and other matters arising in the ordinary course of business from which it is anticipated that no material liabilities will arise. In the ordinary course of business the Group has given guarantees amounting to EUR 31,171 (31 December 2015: EUR 27,822) to third parties.

As part of doing business Marel is involved in claims and litigations, under such indemnities and guarantees. These claims are pending and all are contested. Provisions are recognized when an outflow of economic benefits for settlement is probable and the amount can be estimated reliably. It should be understood that, in light of possible future developments, such as (a) potential additional lawsuits, (b) possible future settlements, and (c) rulings or judgments in pending lawsuits, certain cases may result in additional liabilities and related costs.

At this point in time, we cannot estimate any additional amount of loss or range of loss in excess of the recorded amounts with sufficient certainty to allow such amount or range of amounts to be meaningful. Moreover, if and to the extent that the contingent liabilities materialize, they are often resolved over a number of years and the timing of such payments cannot be predicted with confidence. While the outcome of said cases, claims and disputes cannot be predicted with certainty, we believe, based upon legal advice and information received, that the final outcome will not materially affect our consolidated financial position but could be material to our results of operations or cash flows in any one accounting period.

21. Related party transactions

At 30 September 2016 and at 31 December 2015 there are no loans to the members of the Board of Directors and the CEO. In addition, there were no transactions carried out (purchases of goods and services) between the Group and members of the Board of Directors nor the CEO in the nine months period ended 30 September 2016 and the year 2015.

22. Business combinations

Change in Group structure

As of 1 January 2016 three entities in the United States of America, Marel Stork Poultry Processing Inc., Marel Meat Processing Inc. and Marel Inc., have been merged to one legal entity Marel Inc.

Acquisition MPS Holding III B.V.

On 29 January 2016 Marel concluded the acquisition of MPS Holding III B.V. ("MPS") and obtained control through acquiring 100% of the issued shares of MPS. MPS is a subsidiary of Marel Holding B.V. The purchase price is approximately EUR 368 million on a debt-free and cash-free basis. There are no contingent consideration arrangements.

MPS is a leading company in primary processing solutions for the pork and beef industry as well as in innovative solutions in waste water treatment and food logistics. The acquisition enhances Marel's position as a leading global provider of advanced equipment and solutions to the poultry, meat and fish industries and is fully in line with the company's previously announced growth strategy. This step will support Marel's full line offering in the meat processing industry.

The amounts recorded for the acquisition as disclosed below are provisional. Immediately after the acquisition date the purchase price allocation activities started. As a consequence all of the numbers recorded for the acquisition are provisional. Under IFRS 3, adjustments to provisional fair values and goodwill may be made in the period subsequent to the business combination. The period during which such an adjustment is permitted is limited to 12 months from the date of acquisition.
