

APS 200

Accurate, constant thickness sawing of bone-in and hard frozen products.

- Cuts a wide variety of hard frozen or bone-in meat or fish products to constant thickness.
- Gravity feed system ensures the highest yields.
- Ultra high blade speed gives superb cut quality with no smear, no curl, no bone chips and a clean cut product face.

The AEW Delford APS 200 is an automatic, horizontal bandsaw with high blade speed and automatic feed providing fast, accurate, constant thickness portioning of bone-in and hard frozen product.

It cuts up to 180 portions per minute, enabling a single operator to produce 600kgs (1300lbs) of constant thickness portions in one hour.

The **APS 200** gives easy and precise control of portion thickness to an accuracy of 0.1mm, with maximum yields from an ultra-high speed bandsaw blade.

No tempering is required – the **APS 200** portions hard frozen product with a superb quality cut leaving no smear, no curl, no bone chips and no saw dust on the surface of the product. It offers high quality construction and is totally enclosed for improved safety.

Integrated Systems

APS 200 can operate as a stand alone machine or it can be integrated with a range of weigh/grading options.

Key Features and Benefits

- Portion thickness can be easily controlled to an accuracy of 0.1mm
- High output. A single operator can produce 600 kgs of constant thickness portions in one hour.
- Speeds. Up to 180 portions per minute or 360 portions of smaller, regular meat or fish products.
- Left and right handed versions enable one operator to load two machines.
- Product and blade totally enclosed for maximum safety.
- High quality, robust stainless steel construction.
- Quick and easy to clean.
- CE certified.

Technical Information

Net Weight: 1200kg

Blade Speed: 70m/sec

Slice Thickness: 3–76mm

Portioning Rate Per Minute:

Constant Thickness 90–180

Product Magazines: 5 or 6

Maximum Product Area: 216 x 141mm

Product Temperature Range: 0 to -20°C

Electrical Supply: 10kVA 3 Phase

Air Supply: 12 l/min(max) @ 7 bar

AEW Delford machines carry CE certification.
