

Stacker Indexer

Stacks packs to a fixed count at up to 120 packs/min.

The new AEW Delford Stacker Indexer delivers a fixed number of packs, as a stack, to reduce operator workload and facilitate the manual loading of cartons or crates.

Features and Benefits

- Speeds of up to 120 packs/min.
- Can be integrated with the OCM9500 for crate or box weigh/labelling.
- Stainless steel construction.
- Easy set up and operation.
- Can be integrated with robot loading systems.
- Packs up to 300 x 300mm can be handled.
- Options include lockable castors for portability and 90° outfeed.
