

Marel Corporate Social Responsibility Approach

Marel commits to being socially responsible towards all its stakeholders, including its customers, shareholders, employees, suppliers as well as the environment. By providing efficient and safe solutions to the food processing industry, Marel contributes to developing a sustainable future.

Our guiding principles:

People

Marel provides a safe and healthy working environment, equal opportunities, fosters individual development and ensures the right to freedom of association for all its employees. Human rights violations and illegal labor conditions are not tolerated. Marel engages with local communities, where innovation and education serve as the main areas of social participation.

Planet

Marel encourages efficient use of resources in its value chain and promotes positive environmental impact and protection of the environment. Innovation is at the core of Marel's strategy where the focus is on continuously creating new methods for improving yields and minimizing waste in food production, reducing use of scarce resources such as energy and water and improving food safety.

Profits

Marel promotes long-term profitability, fair trade and good business practices in its value chain through transparency, innovation and collaboration with all its partners.

Marel commits to these guidelines by defining and executing measures in order to fulfill the challenges imposed by them as well as monitoring the results and publishing the status and future ambitions regarding social responsibility.

Our vision is of a world where quality food is produced sustainably and affordably.
